

**Zhana Belaya**, the National Medical Research Center for Endocrinology, Moscow, Russia

Zhanna Belaya is Professor of endocrinology at the institution of post doctoral education and Head of the department of neuroendocrinology and bone disease. Her clinical and research interests are focused on osteoporosis as well as hyper- and hypoparathyroidism and rare bone disease, with a secondary interest in neuroendocrine diseases, in particular, Cushing's syndrome. She has been involved in publishing over 140 Russian and international publications including the Russian guidelines on the diagnosis, prevention and treatment of osteoporosis and Cushing's disease. She is a member of several Editorial Boards and Societies including the European Society of Endocrinology Bone and Calcium working group, and Committee of Scientific Advisors in the International Osteoporosis Foundation.
