

Punith Kempegowda is an Assistant Professor and Senior Fellow of the Higher Education Academy at the University of Birmingham, UK. He is also a consultant at the Queen Elizabeth Hospital Birmingham, UK, with a special interest in reproductive endocrinology and acute diabetes. His research interests are providing the best possible care to people with diabetes and endocrine conditions and developing innovative and evidence-based programmes to teach and learn from each other. He is the chair for SIMBA, which provides simulation-based learning opportunities and Chair for CoMICs, which creates short evidence-based videos on various medical topics. He is also the lead for DEKODE,

a multicentre cloud-based quality improvement programme for diabetes-related emergencies and PCOS SEVa, a multicentre programme aimed at understanding and improving models of care in PCOS. In his spare time, he is an avid traveller, an ardent movie-goer and a passionate foodie—none of the three are even slightly exaggerated if you follow him on his social media.
